Meadow Park Rehabilitation and Health Care Center is a Skilled Nursing Facility, located in Fresh Meadows, Queens. Our goal is simply to provide the highest quality of personalized care in a clean comfortable setting. We use a friendly approach to health care. Our uniqueness is based not only on our high-caliber medical staff and services, but on a nurturing atmosphere. Everyone on the staff works to create an environment where residents can live in a homelike atmosphere, even though their normal lifestyle has been interrupted by illness or injury. Our Center is Glatt Kosher  certified under the VHQ quality seal.

To the Wonderful Staff at Meadow Park,

Thank you for the special care you gave my sister during a most difficult time in her life. I remember how frightened she was upon arriving at Meadow Park in January and the many phone calls I made to you that week. My calls were always returned, my questions always answered and my concerns always understood. Thank you for sharing your knowledge and experience. There was so much my family and I needed to learn.

To the wonderful nurses on the floor, you make a special difference in the lives of the residents. Thank you for the long comforting conversations. It is clear how much all of the nurses care about the work they do.

Thank you is a phrase that falls short in describing my family's gratitude to everyone at Meadow Park. The work you do can only be done by very special people. You provide a safe, nurturing environment—a healing place—and that is a true blessing to those who need your care.

*Sincerely,
Carole Schraudner and Family*

Short-Term Rehabilitation

Our Subacute care is committed to helping patients maximize their potential through rehabilitative services. We help patients regain their independence, thus allowing them to return home as soon as possible. Utilizing state-of-the-art equipment, our emphasis is on patient education and self-care, thus assuring lasting results.

Long-Term Care

Our staff understands that entering a Long-Term Care setting is an adjustment not only for the newly admitted resident, but for his or her loved ones as well. Specifically, new residents fear losing their independence. In addition to their professional abilities, our staff is chosen for the attention, concern, and most importantly, respect that they can

provide to those under their care. We offer a full range of recreational activities seven days a week and during evening hours. Activities are designed to promote independence and self-expression.

Our Staff

Our Nursing care is distinguished by the extra time, warmth, and friendship that are shared throughout the patient's stay. The Nursing staff works closely with our select team of specialists, including Dietary, Recreation, Social Services, Case Management, and Therapy Services, creating an Interdisciplinary Team approach for our patients.

Regularly on-site and always available on-call, our physicians provide ongoing continuity of care. Our physicians believe that the support and interaction of family members play a crucial role in a resident's care. They make themselves available to consult with families and to keep them informed and involved every step along the way.

Amenities

We offer a full range of amenities to truly make our residents feel at home.

- This includes:
- ◆ Remote Control TV/VCR
 - ◆ In-House Movie Library
 - ◆ Private Internet Access
